

# GUTTERGLOVE PRO

Our most advanced product design combines a sturdy frame that can withstand the harshest environments and corrugated mesh that keeps leaves, pine needles, roof grit, insects, and rodents from entering your gutter.

## INDUSTRY-LEADING GUTTER PROTECTION

Gutterglove Pro is manufactured by Gutterglove, the leader in gutter cover technology and customer satisfaction with more 5-star reviews than any other gutter guard in North America.

BACKED BY AN INDUSTRY-  
LEADING WARRANTY

## THE NATION'S MOST TRUSTED

It all started back in 2000 when we were in the gutter cleaning business. For several years, we observed that no gutter guard in the industry was performing as promised. We knew there had to be a better way.

In 2003, we began inventing what are now the highest praised gutter guards in the industry. We created new designs, utilized the best materials, and focused our passion on doing what is best for our customers. We continue to earn our title of The Nation's Most Trusted Gutter Guards™ by committing to:

**Do it Right. Do it Once.™**

**Guard What Matters Most.™**

**Protect Every Gutter, on Every Home.**

## MESH COMPARISON

### Type 316 vs Type 304

Gutterglove PRO

Competitors

Gutterglove  
PRO™

### 1 TYPE 316 STAINLESS STEEL MICRO-MESH

Blocks even the smallest debris and resists warping or rusting year after year.

### 2 PATENTED V-BEND TECHNOLOGY

Lifts debris off the mesh so it can blow off naturally, and improves water flow.

### 3 ANODIZED ALUMINUM FRAME

Withstands the harshest environments, including heavy pine cones and small tree branches.
